WS: 42"
 Power: DCM-189/5.33:1/10x4.7
 or EPS-100C-1S/10x4.7
 Batteries: 8x720NiMh AAA
 or 650mah 2/3AA
 Wing Area: ~350 sq in
 Weight: 8-9 oz
 Wing Loading: 3.3oz/sf

Elevon Throws:
 Reflex: + (up) 3/16"
 Elevator: +3/8", -1/4"
 Aileron: +3/8", -1/4"
 Angle servo arms towards the TE
 to get differential travel

Crease lines for airfoil forming

Fold flaps under and glue/tape to bottom of wing

7.000

11.500

9.500

A small notch will be needed for nose due to airfoil
