

Wittman D-12 "Bonzo"

Gene Bond

WS: 30", try 34" for a 'floater'

Wt: 7-9oz

Power: DCM-189 / EPS-'C' / 9x7 / 2s LiPo (~5A static)

Notes:

Chopsticks can be used for motor mount, or 3/8" spruce

Skewers used for fuse brace, wing struts elevator joiner

For pylon racing, only cut out the right aileron

FanFold construction used, see the 'DPF' thread on RCGroups.com

'Tee Style' fuse shown for reference only, use it or 2 layer laminated fuse

Thanks to Glen Weber for the original idea, mods and testing
